

# Mystery 2014 - Part 1

Gather your fabrics:

For the motif: a pretty vivid fresh green, even in a shaded version. Then natural beige-brown tones from medium light to medium dark. And just a bit of black and white and yellow.

Background: I would prefer something that looks like sky or meadow green. Avoid busy patterns and make sure that the other fabrics don't merge into the background so the motif will be standing out.

Have fun!
