You can easily change the size of blocks to your needs by adjusting the page scaling in the printer settings of your computer or copier.
Here is the formula:
 $(\text{Desired size}) / (\text{Actual size}) \times 100 = \text{percentage for scaling}$
Example: If you want to enlarge a block from its actual size of 6" to 8", you calculate: $8" / 6" \times 100 = 133,33 \%$.
