Paper Piecing Pattern

When printing the PDF file, please make sure that your page scaling options are set to 'none'. In the printout, the lines below should measure exactly 1 inch.

Note: All project measurements are in centimeters.

Finished size: 15x15 cm and 5x5 cm plus seam allowances.

Paper-piece the individual sections, then join them according to the diagram.

Embroider the tip of the umbrella. If you want to embroider the handle also just exchange pieces A+B for AB.

You may also embroider the stems of leaves. Just skip the dashed lines in the pattern. More leaf shapes are in the free pattern „Kaja's Halloween Table Runner“ on my website. Or design your own after nature!

To make three dimensional leaves just stitch the shape through all three layers and turn. Quilt some veins and use a string stem to hang it.
